Upgrade to signal light poles on Air Base Parkway

Fairfield, California (Tuesday, August 16, 2016)—On Thursday, August 25, work will begin by a City of Fairfield contractor to replace signal light poles at two intersections along Air Base Parkway.

The work at the intersections of Heath Drive and Air Base Parkway and Walters Road and Air Base Parkway will be accomplished between 9 a.m. and 3 p.m. and will consist of installing new signal poles, which meet new industry standards for wind and arm strength.

Lanes will be reduced at both intersections, which may cause minor delays for motorists. Please plan your travels accordingly and plan to slow down in the cone zone for your safety and the safety of those working to improve our roadways.

For more information about this project, contact Public Works Supervisor Paul Slone at (707) 428-7403.
